TRUST IN TALASEY

We work tirelessly to offer premium landscaping solutions and we are constantly investing in our people and our technology to ensure that we deliver first-class customer experiences.

Here are just some reasons why our customers can rely on us as a true 'one-stop shop' to provide their hard landscaping solutions:

 **Extensive Range of Products Readily Available**

 **Ethically & Responsibly Sourced Products**

 **Sample Service**

 **Designer & Installer Network**

 **Multiple Training Options**

 **Technical Support**

 **Direct to Site & Home Delivery**

We support our network of UK builders merchants and stockists by only selling our products through them. Simply contact our Customer Experience team for more details of your local suppliers.

You can rest assured that our products have been fully tested, are compliant to the latest regulations and that our ethical supply chain is fully audited and market leading.

Our Service Offer

The Talasey Team are a large network of individuals, dedicated to delivering outstanding support to our customers. From our Customer Engagement Team, Area Sales Managers and Landscaping Consultants, to our Designer & Installer Network and beyond, we are fortunate to have a loyal support network behind us. This is further supported by our empathetic corporate social principles driven through our activities with our supply chain and community. Since 2004, these assets have been central to building Talasey and they will continue to shape us for years to come.

Large Stock Holding

Having large, multiple stock yards across the UK allows us to ensure we are always well stocked and ready to deliver.

Direct to Site Delivery

Ready to place your order? Contact our Estimating team on 01302 965743, who can handle all of your enquiries and process your order for delivery directly to your home, supplied via your local stockist.

Technical Guidance

Our knowledgeable and experienced team are on hand to answer any technical and installation enquiries you may have. Simply give us a call or why not visit the Knowledge Hub on any brand site, for further information and guidance on our products.

Continued Support

In the unlikely event that you aren't 100% satisfied with your purchase, our Customer Care team are here to help. Simply give them a call on 0330 333 8030 or send an email to customercare@talasey.co.uk along with your order information, and a member of our helpful team will provide you with further assistance.

Corporate Responsibility

Talasey are passionate about responsible trading and wholeheartedly invest in our ethical supply chains and the people that work in them. We are active members of the Ethical Trade Initiative (ETI) and Ethical Stone Register.

We are proud about how we are responsibly sourcing raw materials, as demonstrated by our FSC® certification. All of Talasey's composite decking, fencing and cladding in our Piranha range is 100% FSC certified.

We are committed to the sustainability of our products and packaging and are regularly reviewing and updating them to be more environmentally friendly and recyclable where possible.

In addition to ethical supply chain relationships, we believe in supporting the people that work in our community and as such, are National Landscape Partners of the Band of Builders charity and proud supporters of Perennial, the charity that provides confidential support and information to everyone working with plants, trees, flowers and grass.

Perennial was there for me in my hour of need and may well have saved my life. It sounds dramatic, but their calm guidance at a time when my life was in turmoil massively helped me.

At Talasey we offer a selection of training courses to meet customer needs. Our Product Installation Courses offer a blend of theory and hands-on practical learning, which cater to those who already install landscaping products and anyone new to the landscaping industry. Our courses are also suitable for DIYers who are looking to undertake their own installation with confidence.

Our range of product installation courses include:

- ▶ **Basic Site Setting out and Preparation**
- ▶ **Installation of Porcelain Paving Materials**
- ▶ **Installation of Stone Paving Materials**
- ▶ **Installation of Composite Decking & Cladding**
- ▶ **Installation of Artificial Grass**

Our facilities comprise of a large product display room and external display area, allowing attendees to see our products in situ, and understand their various applications.

All of our courses are designed to cover domestic applications, and are held at our purpose built training facility in Lincolnshire.

Talasey On Tour

Coming to a town near you!

Our mobile showroom travels all over the country, visiting a number of our merchant suppliers, whilst also attending many landscaping events and exhibitions, to showcase our range of products, solutions and services. With knowledgeable and hands-on staff, Talasey on Tour is an ideal way to experience and understand product features and benefits, whilst seeing and feeling our products first hand.

For upcoming tour dates and locations

6 Simple Steps to Transform Your Landscape

1

Find your Inspiration

Our brochure is bursting with inspiration and ideas for your next landscaping project, so why not grab a drink and take some time to browse our collection.

[pinterest.co.uk/talaseygroup](https://www.pinterest.co.uk/talaseygroup)

4

Place your order

Contact us to place your order via our stockist network. We can deliver to branch or directly to your home.

2

View before you buy

We recommend you see the product in person where possible before ordering, make use of our handy online sample service to order your samples directly to your door. Alternatively, you can head to your nearest display area, contact us to find yours.

5

Receive your delivery with confidence

Receive your products and let the transformation begin.

3

Find your Landscaping Professional

Our Designer & Installer Network is a select group of members we have partnered with to deliver high-quality design and installation of our ranges. Contact us to find your nearest members. If you're considering undertaking an installation yourself, head to the Knowledge Hub on our brand sites for a range of in-depth, step-by-step installation guides.

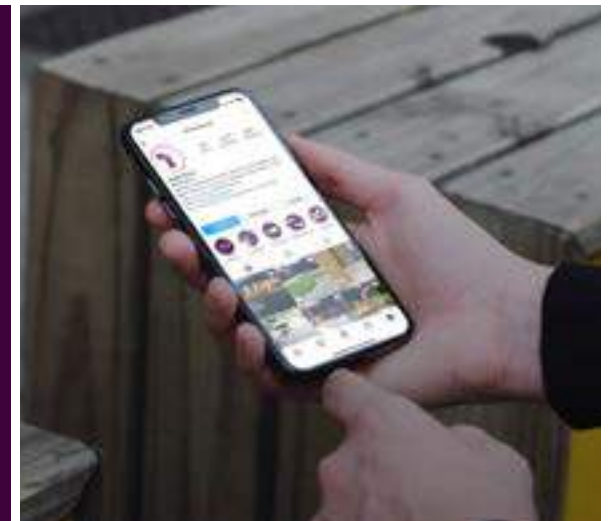

6

Share your project with us and enjoy

Enjoy your new landscape for years to come. Don't forget to tag us in your projects on social.

VITRIPIAZZA

HARD WEARING

ITALIAN INSPIRED LUXURY

VITRIFIED PORCELAIN PAVING

Vitripiazza offers a range of quality porcelain paving solutions for external patios and driveways, internal tiles and wall cladding. With something to suit all styles and budgets, our range of Italian inspired porcelain paving provides homeowners with a contemporary, low maintenance, landscaping solution.

Why Choose Vitripiazza?

STRONG & HARDWEARING

- ▶ Resistant to salt and acid.
- ▶ Higher resistance to algae and mould.
- ▶ Low water absorption.
- ▶ Frost resistant.

SLIP RESISTANCE

All external Vitripiazza products are classified as low slip potential.

NATURAL BEAUTY

Each porcelain flagstone offers a varied colour blend, with numerous patterns to reflect natural landscaping materials.

VITRIFIED PORCELAIN

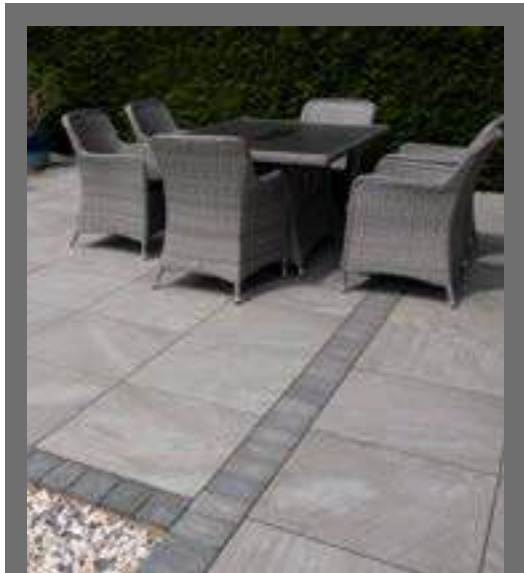

All of our ranges are vitrified porcelain. Quality is assured from Talasey with specifications to suit all styles and budgets.

HIGH STAIN RESISTANCE

The low porosity of Vitripiazza means that spills and general soiling are less likely to soak into the flag, making them easier to clean and highly resistant to staining.

Anno, Grigio

What our customers say

Our Vitripiazza porcelain has helped us transform our garden into a space we are proud to show off to all of our friends and family, and everyone comments on how great the new patio looks!

- Mitch & Steph, Homeowners

Considerations

BATCHING

Porcelain products are a little like wallpaper, in that, the production batches are important.

As with wallpaper, the same colour and print are used in every production run however there can be a slight shade variation between each batch. Every Vitripiazza range will have its own date of manufacture and/or shade number reference. This forms the batch number or batch date, required for matching products for one project.

We strongly recommend that sufficient product for each project is purchased together and from the same production batch, as there may be slight colour variations between different batches.

It's **IMPORTANT** before unpacking that you check the shade references are compatible if you have received more than one pallet.

We recommend you keep a note of your batch number for any potential future orders, in case a batch match is possible.

PRODUCT MEASUREMENTS

All product sizes, weights and coverages stated throughout this brochure are nominal and subject to manufacturing tolerances.

COLOUR BANDING

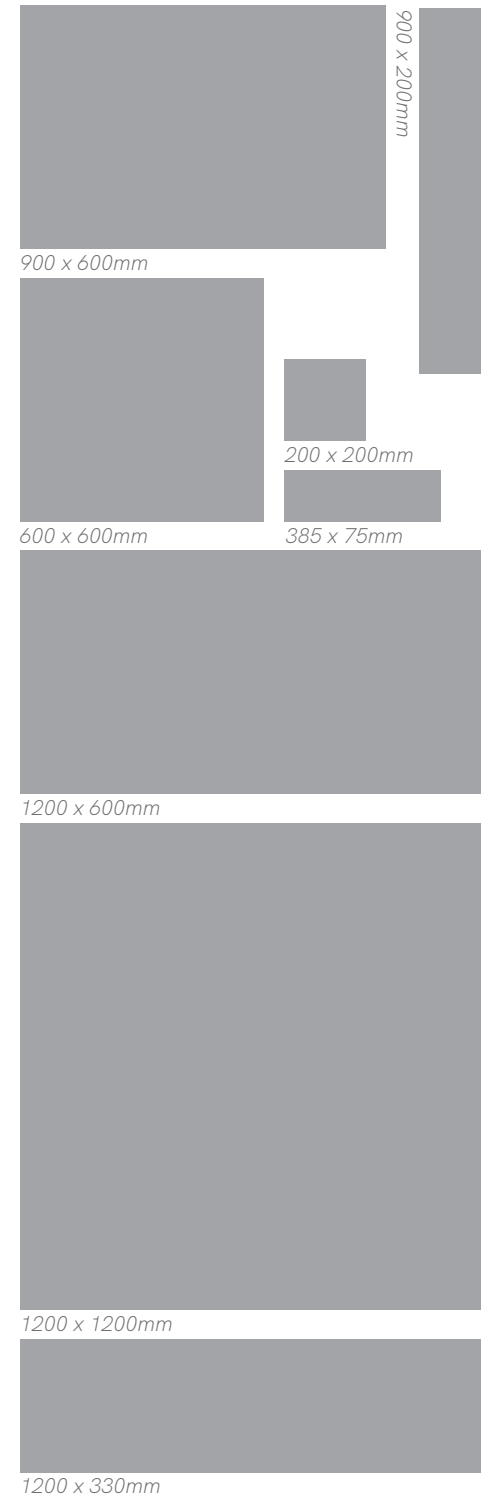

Even when shades are batch matched, it is best practice that the installer mixes the paving tiles from multiple packs when installing any Vitripiazza product, to avoid any potential colour banding.

COST

When it comes to considering the cost of the product range you choose we have added simple symbols to assist you in your choice. Consider that 80% of the cost of a project is made up of the base elements and installation underneath that you do not see. The paving actually only forms 20% of the overall cost, so choosing a premium quality paving will not significantly add to the overall project costs.

SIZE COMPARISON

The Vitripiazza range presents various size formats, from show stopping 1200x1200mm through to the popular 600x600mm.

PRINT PATTERNS

Our ranges of porcelain will each contain a number of print patterns, with some containing more than others. The more patterns within a range, the less likely you will be to see repeats within the installation, giving a more natural, blended look.

The below shows an example of various print patterns that can be found within a range.

Anno Grigio print patterns →

Installation

The Pavetuf range provides a wide choice of installation and maintenance accessories designed to support you with the installation and aftercare of your landscaping products.

We recommend that Vitripiazza is always installed using Pavetuf Priming Slurry. For joints, Pavetuf Jointing Grout is ideal and is designed specifically for use with Vitripiazza products. Pavetuf Jointing Compound can also be used for many applications.

Anno, Pantera

Scan to go to the Knowledge Hub

Adjustable Risers, Edge Restraints and Decorative Channel Drains are also available to assist with installation and add those finishing touches.

See the full Pavetuf range on page 124

Aftercare

The cleaning and maintenance of our Vitripiazza products is easy due to their high resistance to staining. Often soapy water or low pressure washing is enough to keep your investment clean. However, for more robust and specifically designed cleaning solutions, check out our range of Pavetuf Cleaners on page 140.

Considerations

Install

We offer a range of products designed to aid the construction and installation of our natural stone products, including Jointing Compound and Priming Slurry. Please see our range of Pavetuf specialist products for more information on page 128.

Protect & Maintain

Protect and maintain your paving with our range of Pavetuf Sealants to help both minimise the need for maintenance and to enhance the appearance, without affecting the natural beauty that first attracted you. We also offer a wide choice of specialist cleaners, that can tackle everyday cleaning to specific stain types. Visit page 140 to learn more.

For further great pre-purchase tips and post-installation care and advice, we strongly recommend you continue your research by reading our handy online guides.

Product Measurements

All product sizes, weights and coverages stated throughout this brochure are nominal and subject to product specific tolerances.

Colour Banding

Due to the nature of the product and potential colour variations, we recommend mixing product from all packs on-site, to prevent colour banding. We strongly recommend you purchase all the crates you require for your project at once, to avoid any batch variation.

Cost

When it comes to considering the cost of the product range you choose we have added simple symbols to assist you in your choice. Consider that 80% of the cost of a project is made up of the base elements and installation underneath that you do not see. The paving actually only forms 20% of the overall cost, so choosing a premium quality paving will not significantly add to the overall project costs.

Colour and Surface Variations

Natural stone products are uniquely formed through geological processes, making each piece of stone characteristically subject to colour variations, veining, markings and occasional charming imperfections. As no two pieces are identical, natural stone products offer homeowners a truly bespoke landscaping solution.

Brochure Imagery

The product images are an indicative guide towards the finishes and shade variations that can be represented in any given production batch, but they are not wholly representative. Seeing actual material displays or laid installations are the best way to make your choice. On delivery, we strongly recommend you check the finishes and shades are to your satisfaction prior to installation.

Bespoke Service

Our product offer goes beyond what you see in our brochures, and we encourage you to contact us with any specifications you may have, as we can assist in sourcing alternative sizes, thicknesses and surface finishes to meet your requirements.

We offer a bespoke cutting service, allowing you to create unique patterns and designs for a real 'wow' factor, adding a unique touch to your designs that cannot be found 'off the shelf'.

Our in-house bull nosing allows us to process individual pieces of paving in any of our colour options, with a wide variety of options available.

For something truly personal, why not consider our etching service? We can etch and engrave any pieces of stone and porcelain to your own design!

"The bespoke service allows us to offer our customers those little extra details for that higher-end finish. Turnaround time is extremely quick which helps speed up the installation and the factory finish is of an outstanding quality"

- Lee Pickwell, Pickwell Paving

PAVETUF

WE'VE GOT
YOU COVERED

See more on
our website

Pavetuf is a range of products to enable the installation and maintenance of all your hard landscaping needs. The Pavetuf range provides the tools and products that you may need to cut, install and join your paving, through to protecting and cleaning it.

Testimonial

What our customers think

The Pavetuf General Cleaner was so simple to use and worked a treat! I can't believe how much cleaner my patio looked after just one use!

- Megan, Homeowner

How to use guide

Pavetuf Priming Slurry

Pavetuf Priming Slurry is a polymer and cementitious slurry, specially formulated to provide an exceptional bond between a new mortar base and porcelain or stone paving.

- ★ Quick and easy to use
- 💧 Mix with water
- 🌿 More eco-friendly with reduced carbon

Sizes available

25kg bag
Coverage 19m²
Eco-friendly alternative to the tub option

17kg tub
Coverage 12m²

Pavetuf Priming Slurry has partial replacement of the Ordinary Portland Cement with ground granulated blast-furnace slag which not only provides a saving on CO₂ production but also facilitates environmentally friendly disposal of the waste slag.

Accessories

PAVETUF SQUEEGEE

Pavetuf Squeegee is the ideal tool for the quick and simple application of Jointing Compounds & Mortars into paved areas.

PAVETUF PORCELAIN BLADE

A specialist wet cut blade designed to cut porcelain.

Blade specification:

- ▶ 300mm (diameter) x 2.8mm
- ▶ 20 diameter bore
- ▶ OSA approved
- ▶ EN 13236
- ▶ Recommended RPM 3100 up to a maximum of 5100

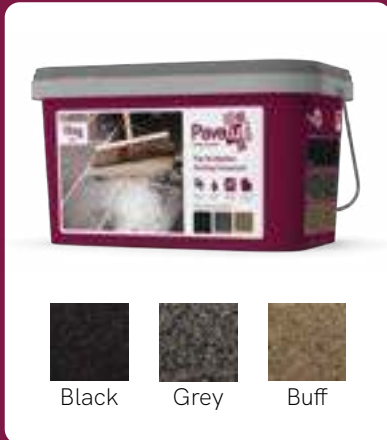

INSTALL

How to
use guide

Finish off your porcelain, stone and concrete paved areas, using one of our **Pavetuf jointing products**. Please refer to our comparison chart to help select the appropriate jointing product for the job.

Pavetuf Jointing Compound

An easy to apply all weather jointing compound.

- ▶ Apply with water, the joints would need to be free draining for this air cured product.
- ▶ Walk on in 24 hours**.
- ▶ Fast and easy to apply in all weathers.
- ▶ No waste, excess product can be stored with water in the tub.
- ▶ Can fill joint widths from 5mm-20mm and joint depths from a minimum of 20mm.
- ▶ Bucket is made from recyclable materials and is fully recyclable.

*Approximately. Coverage based on paving that is 600mm x 600mm, with 20mm deep/10mm wide joints.
**Please refer to our technical guidance for the full details.

Sizes available

15kg tub
Coverage 12m²*

For each tub of Pavetuf Jointing Compound sold, 5p goes to Band of Builders charity.

How To Use

Thoroughly soak the paving and compound - the wetter the better!

1

Brush or squeegee into the joints

2

Rinse off any excess compound and leave to cure

3

How to use guides

Our range of Pavetuf sealants have been designed to delay the penetration of water and oily liquids, allowing time to clean up any spillage to prevent staining of the hard landscaped area. With the added benefit of being breathable, not only can they be used to seal your paving before installation, they can also be used immediately after.

All sealants can be used both internally and externally. We recommend using a paintbrush for internal products.

Invisible Sealer

The Invisible Sealer dries with a virtually invisible finish, ideal for those who want to protect their investment without altering the appearance.

5ltr Tub
Coverage: Approx 25-50m²

Satin Sealer

The Satin Sealer dries with a satin, slightly enriched look. This sealer is suited to those who want to slightly enhance the look and colour of the paved area, whilst also adding additional protection.

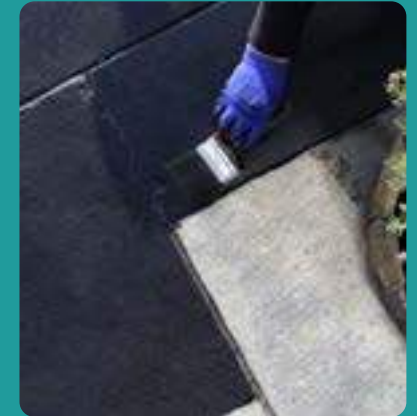

5ltr Tub
Coverage: Approx 50-75m²

Back to Black

Pavetuf Back to Black is a high-performance colour reviver and sealer which restores and enhances the appearance of faded black and dark coloured natural stone. Back to Black is especially suited for use on oxidised black and dark limestones, black slate, black granite and concrete paving.

5ltr Tub
Coverage: Approx 25-80m²

Trust in Talasey

General product information and guidance

ABOUT US

Talasey Ltd is one of the UK's leading suppliers of high-quality, ethically sourced landscaping products. We supply a large range of branded landscaping products including Natural Paving, Vitripiazza, Pavetuf, Luxigraze and Piranha to businesses and their consumers. We have a team of highly experienced sales and technical staff who are available to provide advice and guidance on our products. For further information please contact our Customer Experience Team on 0330 333 8030.

For further important details about our products please refer to our product brand websites (naturalpaving.co.uk, vitripiazza.co.uk, pavetuf.co.uk, luxigraze.co.uk and piranhadecking.co.uk).

UNDERSTANDING OUR PRODUCTS

We have Understanding and Installing Guides for all our ranges that we recommend you read prior to purchase. They are designed to help you with your choice, what to expect upon delivery, some basic installation advice and how to look after your investment.

PURCHASING OUR PRODUCTS

If you would like to purchase any product/s from our range, please contact us directly through our Customer Experience Team. We can assist you by providing contact details for our network of stockists, designers and/or installers. All sales will be subject to applicable Terms and Conditions which are available directly upon request.

SAMPLES

Samples are available by enquiry through our Customer Experience Team, our website or through your local merchant.

DISTRIBUTION

Talasey Ltd's products are available to our stockists for collection or delivery from our distribution centres at Tilbury, Doncaster and Grangemouth.

UPON DELIVERY

All products must be checked on arrival and in the unlikely event of products reaching you in a less than satisfactory condition, please refer to your stockist immediately, allowing time for the affected product to be replaced. Do not install any affected product as we will be unable to consider changing it nor will we accept any installation costs. We recommend if you are going to be away from home whilst the product is laid by a contractor, check you're happy with it before you go.

DIMENSIONS

All sizes and coverages stated throughout this portfolio are estimates and will be subject to minor variation, subject to tolerances. Tolerances will vary from product to product and specific guidance should be sought from our Customer Experience Team before placing an order.

WASTAGE

Allow for cuts and positioning during install, allow for individual units with characteristics that may not be to the users personal liking and, in addition, consider that due to the nature of some of our products and the journeys that they endure to get to your door some breakages may be incurred. Therefore, we recommend that you order an additional 5-10% on the volume calculated.

SPECIFICATIONS

We reserve the right to change, or discontinue, any of our product specifications or designs without notice. We cannot accept any liability for products used for purposes that they were not intended for. We recommend taking expert advice on the suitability of products for your specific needs. The product names of our Natural Paving range do not always relate to the geology of the stone. Product Specification and Design Guidance documents are available on request, via your local merchant or stockist.

INSTALLATION

We have Planning and Laying Guides and/or technical advice available on our product brand websites, (as above), to assist your installation. If in doubt, always speak to a local expert and/or carry out research from reputable independent sources.

COLOURS

The images in this portfolio are only indicative of the shades, and their proportions, that may be represented in any given production batch, particularly with natural stone ranges. The colours shown are as accurate as reprographic processes allow.

Crates and packs should be mixed during installation to create a blend across your entire delivery to avoid colour banding,

particularly relevant for Natural Paving, Vitripiazza and Pavetuf jointing products. Mixing packs is recommended even if the entire delivery has been batch matched.

Always try and order enough product to complete the project to minimise batch variation and try not to mix sources of supply without checking compatibility, prior to install.

Bear in mind, with natural products and those containing aggregates, as we or our partners, work through a quarry, shades will alter so batches bought previously, or installations shown in our imagery, may vary from current supply.

For Vitripiazza, it is strongly recommended you check all the product supplied is from the same production batch before commencing installation.

WEATHERING

Over time, environmental conditions and types of use will impact on our paving and walling products; from organic discolourations, such as algae, bird droppings and fallen leaves through to general soiling and tyre marks etc, and the appearance of our products may be affected. Darker staining agents will be more apparent on lighter coloured paved areas. Regular cleaning of all of our products is recommended.

Due to the composition of natural stone, and natural aggregates, and as its mineral content oxidises, colour variations may also occur.

Talasey cannot accept responsibility for any potential weathering characteristics or the effects of potentially deleterious materials.

MAINTENANCE & CLEANING

For full advice, refer to our Understanding and Installing Guides in our Knowledge Hub.

We have a wide range of Pavetuf maintenance and cleaning products to either help protect your products or make cleaning easier. Refer to our website www.pavetuf.co.uk.

HEALTH & SAFETY

For full advice, refer to our Understanding and Installing Guides in our Knowledge Hub and always follow the product labels. Material Safety Data Sheets are available on request.

It is your responsibility to ensure that you comply with all applicable health and safety legislation and guidelines.

DESIGNER & INSTALLER NETWORK

Please note that our scheme is designed to provide a list of members that are independent contractors, installers and designers, to assist you in choosing a landscaping professional. Talasey Ltd cannot accept credit or responsibility for their actions and work.

LEGAL NOTICE

The information in this portfolio, on the Talasey Ltd's website, in a guide or any document referred to herein (the "Materials") is for guidance purposes and intended to assist you in your purchase and enjoyment of the product. Talasey Ltd will have no responsibility or liability, howsoever arising, for reliance on the information provided in the Materials. Talasey Ltd's sole liability in respect of any products shall be as outlined in the terms and conditions of purchase or in any express guarantee relating to the product purchased. Any product guarantee referenced in the Materials is subject to terms and conditions. Whilst we work closely with our partners, any arrangement you make or advice you take from them will be subject to your contract with them. Talasey Ltd has no liability in respect of any act or omission of any third party. Every effort has been taken to ensure that the information contained in the Materials is accurate, specifications and tolerances will be as contained in your order for the products, and may differ from those stated in the Materials, particularly with respect to natural materials, where colours may differ from those illustrated.

Guidance provided by Talasey Ltd is generic and advice should be sought in respect of local environmental and building regulations as applicable.

ACKNOWLEDGEMENTS

We would like to thank our Designer & Installer Network members, homeowners, merchant network and suppliers who have contributed to the production of this portfolio. For full acknowledgement of the work shown in this portfolio, please go to www.talasey.co.uk/acknowledgements
